

ALL WIN 5m/3.2m Giant hybrid UV printer

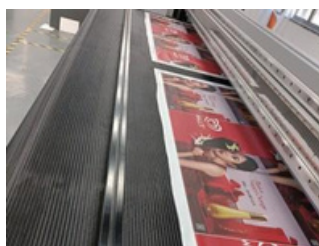

1818 sqft/h (4 rows)

1129 sqft/h (3 rows)

- Adopt metal raster with magnetic linear motion sytem, higher printing resolution and stability with longer lifespan

- To print standard size board, it can achieve continuous printing without pause and changing the board, which increases the production efficiency

- When print roll to roll, continuously print to the end of the roll without any waste, media loading is much easier

- It can print two rolls of 1.52M media together to save more time, labor work and workspace

4/6 color high resolution high speed printing suitable for mass production

Model	ALLWIN 5m/3.2m giant hybrid UV printer
Printhead	5m : KM1024aSHE (4-24H) / 3.2m : KM1024aSHE (4-14H)
Resolution	1440DPI
Speed	5m : 169 m ² /h-16H 4rows,4 color / 3.2m : 105 m ² /h-12H 3rows,4 color
Color option	CMYK/double CMYK/ CMYK LC LM (White and varnish optional)
Media thickness	0mm~25mm
Lamp	LED lamp
Platform section	8-zone suction / 4-zone suction (adapted to different sizes of materials)
Print type	Roll to roll/ rigid media
Print width	5000/3200mm
Ink type	UV curing ink
Option	Front and rear extensional frame desk
Bulk volume	3L bottle with ink alarm, ink filling without pause
Ink supply system	Automatic negative ink supply system
Media type	Glass, ceramic, metal, paper board, leather, wall paper, soft film, PVC, PP, PE
Operation system	Windows 7/10 64bit.RAW≥500G. SSD≥128G.CPU≥Inte i5
RIP software	Photoprint/Print Factory (Caldera for option)
Work environment	Temp.: 18~26℃ to reduce the static Humidity: 40~70% to reduce the static
Power	Max power: 10KW; AC,50HZ/60HZ: 220V(±10%)>45A
File format	Tiff,JPEG,EPS,PDF
Machine dimension	8194x2162x1772mm optionFront and rear extensional frame desk (5m) 5970x1600x1640mm optionFront and rear extensional frame desk (3.2m)
NW/GW	6000kg (5m) / 2200kg (3.2m)
Security Certificate	CE
